Casewatch Millennium® Client Share/Non-Share Consent Form

I wish to register with Ryan White Program/Casewatch Millennium® in order to receive services funded by the Ryan White Program or the Department of Public Health (DHP), Division of HIV and STD Programs (DHSP). During registration, I will be asked to provide information about myself, including my name, race, gender, birth date, income and other demographic data. Depending upon the agency or program I am registering with, I may also be asked questions about my CD4 cell count, viral load, use of HIV medications, risk behaviors, my general physical and medical condition and medical history.

In addition to providing information, I will provide an original letter of diagnosis signed and dated by my doctor, or have a blood test that shows that I am HIV positive. By signing this form, I verify that I reside in Los Angeles County.

I understand that certain services may be available to HIV-negative partners, family members, or other caregivers affected by HIV, and registration and service information for these clients will not be shared between agencies regardless of my own share status. I understand that my name and information will not be shared outside the Ryan White Program/Casewatch Millennium® system unless I provide my specific, informed consent for such a disclosure. A list of Ryan White Program/Casewatch Millennium® agencies is available upon request.

Additionally, as a condition of receiving Ryan White Program services, I agree that my information will be made available to my local health department, to fiscal agents that fund services I receive, to DPH/DHSP, and to the State of California Department of Public Health (CDPH), Office of AIDS, AIDS Regional Information and Evaluation System (ARIES) for mandated care and treatment reporting, program monitoring, statistical analysis and research activities. This information includes the minimum necessary, but is not limited to gender, ethnicity, birth date, zip code, diagnosis status, and service data. No identifying information, such as name and social security number, will be released, published, or used against me without my consent, except as allowed by law.

I understand that my relevant health, including HIV status, and income information will be shared with my local health department, fiscal agents that fund services I receive, the Department of Public Health, Division of HIV and STD Programs, and the State of California Department of Public Health (CDPH), Office of AIDS, AIDS Regional Information and Evaluation System (ARIES) when I request enrollment in care or access to services at a Ryan White Program agency. Only authorized personnel at each agency will have access to my information on a need-to-know basis. The information shared may include information about services received or my treatment at a particular agency. Mental health, legal and/or substance abuse services will only be shared as allowed by law.

In most cases, I will not need to re-register (in Casewatch Millennium®) or provide a letter of HIV diagnosis when I require services from an agency providing services funded by the Ryan White Program or the DPH/Division of HIV and STD Programs.

My registration in Ryan White Program/Casewatch Millennium® does not guarantee services from any agency. Waiting lists or eligibility requirements may exclude me from services at other Ryan White Program/Casewatch Millennium® agencies.

I acknowledge that I have been offered a copy of this consent form, and have discussed it with the staff person indicated below. I understand that this form will be stored in my paper file and that this consent form remains in effect for three (3) years from the date I sign this form.

HIPAA CONSENT

The Health Insurance Portability and Accountability Act of 1996 (HIPAA), established a "Privacy Rule" to help insure that personal health care information is protected for privacy. The Privacy Rule was also created in order to provide a standard for certain health care providers to obtain their patients' consent for uses and disclosures of health information about the patient to carry out treatment, payment, or health care operations.

As our patient, we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We strive to always take reasonable precautions to protect your privacy. When it is appropriate or necessary, we provide the minimum necessary information only to those we feel are in need of your health care information regarding treatment, payment or health care operations, in order to provide health care that is in your best interest.

We fully support your access to your personal medical records. We may have indirect treatment relationships with you (such as laboratories that only interact with the physician and not patients), and may have to disclose personal health information for purposes of treatment, payment or health care operations. These entities are most often not required to obtain patient consent.

You may refuse to consent to the use or disclosure of your personal health information, but this must be done in writing. Under this law, we have the right to refuse to treat you should you choose to refuse to disclose your Personal Health Information. If you choose to give consent in this document, at some future time you may request to refuse all or part of your Personal Health Information. You may not revoke actions that have already been taken which relied on this or a previously signed consent.

If you have any objections to this form, please ask to speak with our HIPAA Compliance Officer. You have the right to review our Privacy Notice (Compliance Assurance Notification to Our Patients), to request restrictions and revoke consent in writing.
